General Wholesale Catalog

PLANTS and CUTTINGS · BULBS · SEEDS

Insecticides · Fertilizers · Supplies

FOR SEEDS REFER TO OUR SPECIAL SEED CATALOG.
FOR OTHER BULBS THAN SHOWN HEREIN REFER TO OUR FALL BULBS CATALOG.
We will be glad to mail you copy of either of these if you do not have them.

SATISFACTION GUARANTEED

We are located in the heart of the New York Cut Flower Market. We have nine men on the road traveling extensively in nearly all sections of the country. Our position, for over 25 years, has been one of daily contact with the grower and his needs.

This catalog, we believe, is full evidence in itself of our long established plan to render a complete service to the grower in a full line of **Seeds, Bulbs, Plants, Cuttings, Insecticides, Fertilizers, etc.** At all times we invite inquiries as to prices and all other information.

PLANTING TABLE FOR COLD STORAGE LILIUM GIGANTEUM AND FLOWERING DATES

Planting Date	Flowering Date	Planting Date	Flowering Date	Planting Date	Flowering Date
January 1.....	April 15 to 25	April 1.....	July 15 to 30	July 1.....	October 1
January 15.....	April 25 to May 5	April 15.....	August 1	July 15.....	October 15
February 1.....	May 15 to 30	May 1.....	August 10	August 1.....	November 1
February 15.....	June 1 to 10	May 15.....	August 20	September 1.....	November 25
March 1.....	June 10 to 30	June 1.....	September 1	September 15.....	December 15 to 25
March 15.....	July 1 to 10	June 15.....	September 15	October 1.....	January 1 to 10

If LILIUM SPECIOSUM RUBRUM or MAGNIFICUM are planted on the above dates it will take six to eight weeks longer to flower them than the Lilium Giganteum.

Lilium Rubrum or Magnificum should be planted June 15 to July 1 to flower for Christmas.

The above are all approximate flowering dates. If we have extremely warm weather they may flower a week earlier. It all depends on the weather conditions.

FLOWER SEEDS—Refer to Special Seed Catalog

IRWIN'S CARNATION INTRODUCTIONS ARE DEPENDABLE

Mr. Carnation Grower:

For over 25 years, Carnations have been one of my specialties. In 1934 I introduced "Virginia" and had exclusive sale for two years. Virginia immediately took its place as a leader of the light pinks and still retains top ranking. Growers tell us year in and year out that it continues to be one of the best money makers.

In 1938 Gardenia Carnation made its debut as the largest white yet introduced. It is one of the most attractive of the Exhibition varieties and on account of its unusual fragrance, resembling the Gardenia after which it was named, it can easily be substituted for Gardenias when the latter are not available.

In 1939 we introduced Virginia Rose and Mrs. C. B. Johnson. Both were enthusiastically received and have been well liked. We are receiving numerous re-orders this season.

John Briry was first introduced in 1940. It has a 3½" flower, well-formed slightly fringed; is a vigorous and healthy producer. Has been well liked in 1940 and we have a large quantity sold for the coming season.

For 1941 we are offering SILVERLYN, a new seedling. The flower is 3-3½" well formed and very full. Silverlyn is a fine medium pink with silver edges. Those who have seen it in bloom praise it highly.

For 1942 we are offering HELEN HUSSEY, a clear salmon and IVANHOE, garnet with orchid edges; for 1942—MARY STUART, a beautiful purple with silver edges and ELIZABETH ROWE, a distinctive rose pink. Further descriptions on these varieties will be found in the following paragraphs.

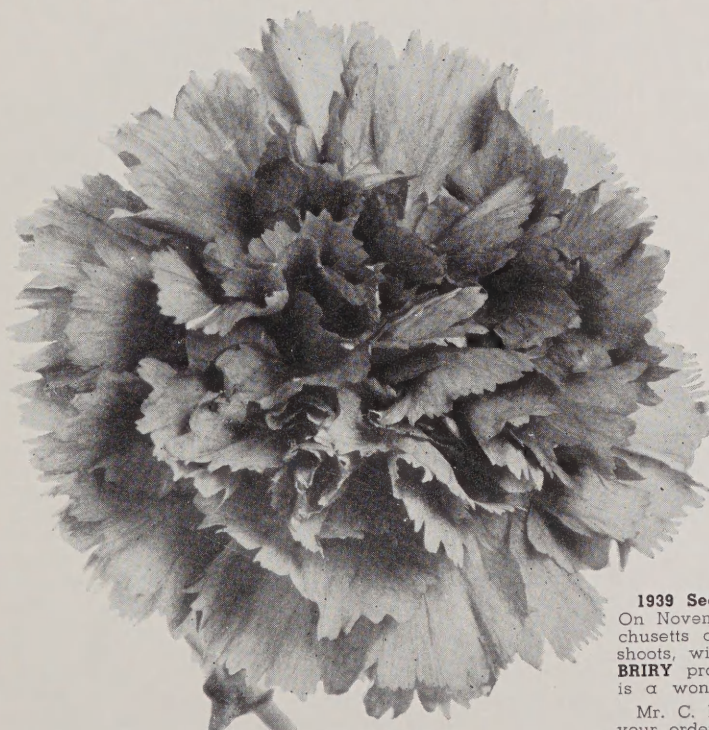

Before recommending new carnations I make sure of their commercial merit and see them growing several times. The keeping and shipping qualities of new Carnations are most important. They must be free flowering with good stems and clean, healthy growers.

In addition to specializing in Carnations in this country, my export business on Carnations has been built up to considerable volume as a result of my recommendation of the best varieties introduced in America. I give particular attention to foreign orders as to special packing, and am familiar with regulations and other details regarding exporting, such as obtaining permits, certificates, etc.

While the European situation is at present very unsettled, we are nevertheless exporting a few orders in spite of the difficulties.

When interested in new varieties write me and I will gladly give you my candid opinion.

ROMAN J. IRWIN.

JOHN BRIRY—Dark Pink

1939 Seedling Originated by Wm. Sim & Son, No. Berwick, Maine. On November 25 to December 5, when I visited growers in Massachusetts and Maine, plants were clean and healthy with 20 to 25 shoots, with 3 to 5 buds; some growers were cutting flowers. JOHN BRIRY produces fancy perfect flowers, no seconds, seldom split and is a wonderful keeper.

Mr. C. B. Johnson expects to cut 22 to 25 flowers per plant. Place your order now for some—I recommend JOHN BRIRY. Immediate delivery. Fine clean cuttings assured. \$20.00 per 100, \$150.00 per 1000.

NEW CARNATIONS FOR 1941

SILVERLYN. A superb seedling in all respects. The color is a fine, medium pink with silver edges. The flower is 3-3½ in. in size, well formed and very full. Not patented but sold under growers' agreement. Delivery January, 1941. There will be only a limited number of cuttings in 1941 but an adequate supply in 1942. (See Front Cover.)

\$20.00 per 100

\$150.00 per 1000

MIDDLEMOUNT RED. Sport of Spectrum Supreme. An outstanding red. Not patented but sold under growers' agreement.

\$20.00 per 100

\$150.00 per 1000

MOONBEAM. A new variety introduced by the Department of Agriculture, Washington, D. C. The flowers are good-sized and clear yellow in color. Roots easily and makes a bushy plant. It is a good producer and shows promise of being widely grown.

\$12.00 per 100

\$100.00 per 1000

POLLYANNA. A seedling from Light Pink Abundance crossed with a seedling variety. Bloom is good-sized and symmetrical and keeps exceptionally well. The calyx does not split. Color is a good Laddie shade of salmon flesh which holds its freshness late into summer. Patented.

\$15.00 per 100

\$125.00 per 1000

SEA SHELL. Lovely shell pink, lighter and softer than Virginia or Maytime Good keeper, long stems, calyx does not split; good producer.

\$15.00 per 100

\$125.00 per 1000

MARY STUART

Rich purple with glistening silver edges.

FOR 1942

HELEN HUSSEY. Seedling. A beautiful, clear salmon of the bread and butter variety. Very free and a lovely color. Not patented but sold under growers' agreement. Delivery January, 1942.

\$15.00 per 100

\$125.00 per 1000

IVANHOE. Seedling. Garnet with orchid edges. Markings are somewhat similar to Lochinvar but more pronounced. Very free flowering. Not patented but sold under growers' agreement. Delivery January, 1942.

\$15.00 per 100

\$125.00 per 1000

FOR 1943

MARY STUART. A beautiful seedling which has a most promising future. This Carnation is a rich, imperial purple with glistening silver edges. The flower is 3½ in. in size and unusually double. Not patented but sold under growers' agreement. Delivery January, 1943.

\$20.00 per 100

\$150.00 per 1000

ELIZABETH ROWE. Seedling. Rose pink, about the same size and color as Virginia Rose. Heavy bloomer. Not patented but sold under growers' agreement. Delivery January, 1943.

\$15.00 per 100

\$125.00 per 1000

IVANHOE

Garnet with orchid edges.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

1940 CARNATION INTRODUCTIONS

BERKSHIRE HILLS. Sport of Patrician, light salmon pink, similar to Laddie. Not patented.

CANDYSTICK. Sport of New Deal, white variegated with very pronounced rose stripes—very attractive. Not patented.

CHARM. "Charm" Seedling No. 9 originated by A. Rasmussen & Son. Previously named Hoosier Lad, now renamed "CHARM." "CHARM" is a Laddie seedling; same color as when Laddie is at its deepest and best; size almost as large as Laddie, but produces 50% more flowers than Laddie. Looks very good. Patented.

DARK PINK MAYTIME. Sport of light pink Maytime, same color as Ditchling, the English variety. Has the same habits as Maytime. Not patented.

EDDIE G (Seedling). Deep pink. Very good producer, medium size flower.

HERMOSA. New light pink. Not patented.

JOHN BRIRY. Dark pink, a little darker than Ward, with 3½-4½-in. blooms; long stiff stem, free flowering and a wonderful keeper. At the Boston Flower Show it kept longer than any other variety exhibited.

JOYCE (Seedling). New deep crimson. Flowers are large and beautifully formed. Good producer, very little splitting. (English variety.)

MARIBEL (Seedling). The largest Ward color pink yet introduced. For its size it produces well. It has only one fault—it splits badly. To prevent splitting you can grow fancy flowers by using our new pliable metal carnation band listed in catalog on Page 5.

SETH PARKER. Crimson, large flower, free bloomer. Patented.

SNOW WHITE. A fine large white. Not patented.

WHITE MAYTIME. Sport of light pink Maytime, same habits. Not patented.

WHITE PETER FISHER. Sport of Pink Peter Fisher. Very good. Not patented.

STILL GOING STRONG

VIRGINIA ROSE. First introduced in 1939. Dark Pink Sport of Virginia, a more pleasing shade than Mrs. C. W. Ward, which will blend in all kinds of floral work, Virginia Rose has all the same good qualities as Virginia in every respect. While Virginia has produced several dark pink sports, Virginia Rose is in our opinion the finest on the market. Be sure to order some of this wonderful Carnation that does not split.

GLADIOLUS

Delivery—January and later

To-na-cide Treated

Growing Gladiolus under Glass—Best results are obtained by planting not earlier than February 1 to 15, and the No. 1, first-size bulbs should be used. The bulbs are dug in late Fall and require a rest period until about February 1. By planting too early they are liable to become blind. Average time for blooming is three to four months after planting. Cultural directions on request.

Thousand rate will apply on all orders for 250 or more of a single variety or if the total order is 1000 or over of not less than 100 of a variety. On smaller orders hundred rate will apply. We can also supply bulblets. Write for quotations. Special price on large orders.

PLEASE NOTE:

While we buy our Gladiolus bulbs from only the most reliable sources, we cannot give any guarantee as to their being free from Thrip or any other insects.

Whether they are free when planted or not, they may become infected very easily when growing. Most growers agree that for best results the bulbs should be soaked in Corrosive Sublimate before planting and sprayed while growing with Tartar Emetic.

We do not claim this is a "cure-all" but many growers tell us it has been the difference between a failure and a good crop. Complete directions are furnished with both the Corrosive Sublimate and the Tartar Emetic. Prices are as follows:

Corrosive Sublimate.....\$0.35 an ounce; \$1.00 for 3 ounces

One ounce is sufficient for two to three thousand bulbs.

Tartar Emetic.....1 lb. for \$0.70; 5 lbs. or over \$0.60 a lb.

One pound mixed with four pounds of brown sugar makes 25 gallons solution.

HORTICULTURAL BOOKS

FOR FLORISTS AND GROWERS

COMMERCIAL FLORICULTURE. By Fritz Bahr. Fourth edition revised, enlarged, brought thoroughly up-to-date. The book of books for the florist-growers, and now embracing, in addition to the wealth of material presented in the previous edition on the successful management of a retail grower's establishment, full information and advice on every advancement that has been made in recent years in this branch of the business, particularly in growing the various florist flowers, together with a full discussion of such new subjects as cloth houses, sash houses, electrical heating of hotbeds, sterilization of soils, effects of gas on plants, artificial light in the greenhouse, timing greenhouse crops, common plant enemies and their control, etc. Part I embraces the Retail Grower's Methods, while Part II consists of a Cultural Manual for Retail Growers in which explicit cultural directions are given covering well over 500 plants of commercial value to the grower. 646 pages, 6x9 in.; 308 illustrations.

INSECTICIDES

APHINE. Destroys green, black or white fly and most all leaf-sucking insects. Qt. \$1.10, gal. \$3.00.

ARSENATE OF LEAD. The standard spray or dust for quick, dependable control of practically all leaf-eating (not sucking) insects. 1 lb. carton 39c, 4 lb. bag 75c, 100 lbs. \$13.50.

BLACK ARROW. A non-poisonous pyrethrum dust, effective against many insects. 10 lbs. \$4.00, 50 lbs. \$16.75, 100 lbs. \$32.00.

BLACK LEAF 40. A concentrated solution of nicotine sulphate. An excellent spray for aphids and sucking insects of all kinds. 1 lb. \$2.25, 2 lbs. \$3.25, 5 lbs. \$5.85, 10 lbs. \$10.60.

BONSUL Colloidal Sulphur, particles of infinitesimal proportions. 1 lb. \$1.00, 25 lbs. \$18.75.

BORDEAUX MIXTURE (Powder). Controls all fungus diseases. Can be used either for dusting or as wet spray. 4 lbs. 65c.

COPPER SOLUTION. For rust, blight, mildew, and most leaf diseases. Qt. \$1.50, gal. \$4.60.

CORROSIVE SUBLIMATE. For soaking Gladiolus Bulbs before planting. Complete directions furnished. 1 ounce is sufficient for 2 to 3 thousand bulbs. 35c an ounce, \$1.00 for 3 ounces.

CUPROCID. Before planting, protect your seed against "damping off" with a coat of Cuprocid-powder. Lb. \$1.00, 5 lbs. \$3.75, 20 lbs. \$12.50.

CYANOGENAS (Calcium Cyanide). Very effective chemical fumigant. Controls aphids, thrips, white fly, scale, etc. 5-lb. tin \$3.00, 25-lb. tin \$10.00.

DN-SULFUR DUST No. 10. Especially recommended for dusting Carnations and other plants where a very fine powdered sulphur is desired. 10 lbs. \$3.50, 100 lbs. \$25.00.

DERRISOL. For control of sucking insects. 2 lbs \$3.00, 10 lbs. \$12.00.

EVERGREEN. Non-poisonous. Highly effective against both chewing and sucking insects. Harmless to foliage. Gal. \$9.50.

FISH OIL SOAP. For mild forms of scale. Excellent for greenhouse spraying. Kills lice and sucking insects on all plants. 1 lb. 30c, 5 lbs. 95c, 10 lbs. \$1.85.

INSECTICIDES AND DISINFECTANTS—Continued

FULEX. A liquid fumigator for use in **Fulex** lamps.

No. 400 is for Carnations; No. 300 is for Roses and mixed crops. Specify which. \$9.00 per gal.

No. 200 is for cleaning out empty houses. \$5.00 per gal.

FULEX DISK EVAPORATORS. \$1.50 each.

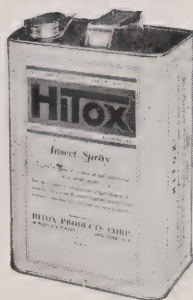

FULEX LAMP STOVES. \$2.00 each.

FUNGITROGEN. For mildew and black spots on Roses, Carnations, Snaps; for mildew on Sweet Peas and Hydrangeas. Gal. \$6.00.

FUME-TOBAC. Strong fumigation tobacco powder for burning in greenhouse. 25 lbs. \$5.00, 50 lbs. \$8.00, 100 lbs. \$15.00.

GRAPE DUST. For mold, mildew, or rust-mites, either in the greenhouse or in the open. Used by dusting. 5 lbs. \$1.25, 10 lbs. \$2.25.

GRASSELLI STICKER SPREADER. For use with contact spraying insecticides. Gal. \$5.25.

HITOX. A concentrated spray of rotenone and pyrethrum. Qt. \$3.00, gal. \$9.00, 5 gals. \$40.00.

INSECTROGEN. Kills most leaf-eating insects such as worms, roller, beetles, etc. on Mums, Snaps, Calendulas, Carnations, Roses, etc. Gal. \$8.00.

KILSLUG. For control of snails and garden slugs. 125 doses 75c, 325 doses \$5.50.

LEMON OIL. Destroys mealy bug, scale, red spider. Gal. \$2.50, 5 gals. \$10.00.

LETHANE 440. Kills mealy bug eggs.

Mix with soap for red spider. Qt. \$2.75, gal. \$7.00.

LETHANE SPREADER. Gal. \$1.80.

LORO. For controlling aphids, thrips and red spiders. Gal. \$10.50.

LUCKY STRIKE CONCENTRATED COPPER SOLUTION. 1 qt. makes 64 to 128 qts. spray. \$1.50. 1 Gallon cans, 256 to 512 qts. \$4.50.

LUCKY STRIKE DUST. For dry dusting and wet spraying. Lucky Strike Dust with sulphur kills insects and prevents certain fungus disease and blight. 4 lb. bags at 30c lb., 30 lb. bags (bulk) 20c lb.

LUCKY STRIKE GARDEN INSECT SPRAY. Kills both chewing and sucking insects by contact and through the stomach—does not injure or discolor foliage and does not contain arsenic, lead or other inorganic poisons. 1 qt. makes approximately 192 gals. Finished spray, \$3.75. 1 Gallon makes approximately 768 gals. \$10.00.

LUCKY STRIKE ROSE KITS. Complete combination insecticide and fungicide—kills insects both by contact and through the stomach. Prevents mildew.

Kit No. 1, 8 to 16 qts. \$1.00.

Kit No. 2, 32 to 64 qts. \$2.00.

Kit No. 3, 75 to 150 qts. \$3.50.

MULTICIDE. 50 per cent stronger than evergreen. Qt. \$2.50, gal. \$9.50.

NAPHTHALENE. Pure refined flakes, 25 lb. \$3.25. 100 lb. bag, \$9.50.

NICO-FUME LIQUID. A free nicotine preparation used by leading growers for spraying against all leaf sucking insects. 4 lbs. \$5.75, 8 lbs. \$10.00.

Important Information

NOTICE—We endeavor to send out only the very best quality of bulbs, seeds, plants and cuttings, and do our utmost to assure you of stock true to name, but we do not warrant in any way, expressed or implied, the contents or the description, quality, productiveness, or any other matter of merchandise sold by us, and we will not in any way be responsible for the crop. If the purchaser does not accept these terms, the merchandise must be returned at once.

We recommend that shipments go by express, except very small shipments which can be readily mailed. Claims cannot be collected when cuttings are shipped through the mail, hence we recommend express, because a claim can be entered for damages through delay, etc. We mail small quantities only in cool weather—it is unsatisfactory to mail cuttings when the warm weather sets in.

TERMS—60 days net, less 2 per cent cash in 10 days, or less 2 per cent cash with order. **Postage** and **Express** charges must be paid by the customer.

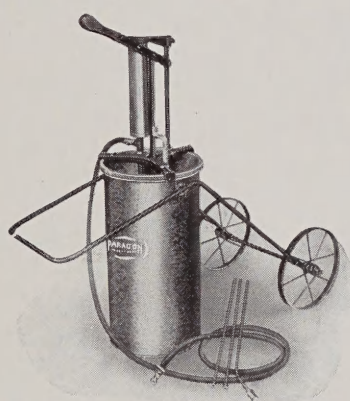

ROMAN J. IRWIN.

POSTAGE—100 cuttings, add 15c. extra for postage. For each additional 100, add 5c. more. For **Special Handling Service** (which we highly recommend), add 25c. for each shipment—it's worth while.

CLAIMS FOR DAMAGES—You must enter a claim against the express company immediately. According to law the transportation companies are the agents of the buyer, and when goods are delivered to and accepted by such agencies the shipper's responsibility ceases. We will, however, gladly assist you in making your claim if you advise us.

PRICES—All prices in this catalog are subject to change without notice.

Unless otherwise quoted, we sell 250 of a variety at the 1000 rate. Orders for less than 100 add .50 to pro rata price.

MOST POPULAR SELLER

*The Leading Insecticide
For Insects in the
Soil*

*For Greenhouse,
Cold Frames,
or Garden*

To-na-cide has for years been the leading insecticide for insects in the soil. It is in powdered form and is used by sprinkling around the plants either in pots or in benches. After applying, it is then left overnight and watered into the soil or lightly pulverized.

To-na-cide is also specially recommended for use on soil being prepared for a planting of any kind thus insuring its being free of insects before the plants or seeds are actually put in.

For the curing of bulbs and tubers such as: Gladioli, Dahlias, Narcissus, Iris, a dusting of To-na-cide is recommended for keeping them free of insects while in storage.

1 lb. covers 60 square feet
25 lbs. covers 1,600 square feet
100 lbs. covers 6,000 square feet

Use on your Mums, Carnations, Gladiolus, Roses, Snaps, Delphiniums, Asters and other plants. Complete directions furnished with each order.

5 lbs.	\$1.25	100 lbs.	\$13.00
25 lbs.	4.00	200 lbs.—per 100.....	12.50
50 lbs.	7.00	500 lbs. or over—per 100.....	12.00
